- USB Charging Cable
- 3.5mm Audio Cable
- 300mah Battery (Inside Headphones)
- Product Manual

Cautions

- Fully charge the headphones before using them for the first time. The headphones are fully charged when the light goes off, which should be after about 3 hours of charging.
- Do not play music while charging. This may damage the headphones.
- Keep the headphones dry.

Charging my RockZilla™ Bluetooth™ Stereo Headphones

Simply connect your USB charging cable (included) to the port on the headphones.

The red charge indicator light that turns on when the headphones are plugged in will turn off once the headphones are fully charged. This should take about 3 hours.

Turning my RockZilla™ Bluetooth™ Stereo Headphones on or off

To turn the headphones on or off, press and hold the multifunction button for about 3 seconds. The headphones will beep and the indicator light will flash twice – blue when turning on, and red when turning off.

Pairing the RockZilla™ Bluetooth™ Stereo Headphones to my Bluetooth™ device

Make sure the headphones are turned off.

Press and hold the multifunction button about 5 seconds until you hear a voice indicating the device is ready to pair. The LED indicator light will flash blue twice and then alternately blue and red.

Press “search for available devices” on your Bluetooth™ device. Select GA281M when it comes up on the available device list. The pairing password is 0000, if requested.

Playing music with my RockZilla™ Bluetooth™ Stereo Headphones.

The headphones must be switched on and connected to an audio device.

To pause the music, press the multifunction button until you hear a short beep. To change songs press the “fast forward” or “rewind” buttons. The headphones can be used as regular wired stereo headphones when connected to the audio device with a 3.5mm audio cable (included).

Adjusting the volume of my RockZilla™ Bluetooth™ Stereo Headphones.

Rotate the volume control dial to find the desired volume when listening to music or talking on the phone.

Using the phone function on my RockZilla™ Bluetooth™ Stereo Headphones.

To make a call when the headphones are connected to the phone, use the phone as you normally would, to make the call out. The phone call will automatically connect through the headphones.

To answer a call, press the multifunction button until you hear a short beep.

NOTE: When the phone rings, you will hear an audible voice say “incoming call”. The red and blue lights flash simultaneously.

Other phone functions:

Phone Function	Action	Indicator
Reject a call	Press and hold multifunction button	Long beep
End a call	Press multifunction button	Short beep
Redial last number	Double press multifunction button	Beep twice
Switch between two calls	Double press multifunction button	Beep twice

Frequently asked Questions

What is the typical battery life for the RockZilla™ Bluetooth™ Stereo Headphones?

The battery life can be impacted by many things such as: storing at low temperatures, amount of charge when beginning usage, volume level, type of device being streamed from, etc. Playing time (not at max volume) is up to 8 hours. Rechargeable batteries also have a finite life cycle and will need to be replaced at some point.

What is the range of the RockZilla™ Bluetooth™ Stereo Headphones?

The range of the headphones is approximately 30 feet. This range may be affected by obstructions such as walls. If you are having trouble with reception, check for these kinds of obstacles.

How do I clean my RockZilla™ Bluetooth™ Stereo Headphones?

Wipe surface with a dry cloth.

Is there a warranty on the RockZilla™ Bluetooth™ Stereo Headphones?

Yes, there is a 1-year limited warranty. Please register your headphones online within 30 days of purchase. To register and to see full warranty details go to www.RockZillaUSA.com/Warranty.

I have another question. How do I get answers?
